About Me

Detail-oriented and results-driven IT developer who builds practical, user-focused systems, from a POS and inventory system for an electric store to an HR ticket system and a full school library management system. Experienced in handling the whole development process, from understanding what users need to designing the database, building the features, and generating reports. Seeking an opportunity to apply my programming, system development, and problem-solving skills while continuing to learn and grow in a professional setting.

Education

Bachelor of Science in Information Technology
La Consolacion College of Tanauan
Tanauan City, Batangas
2024

AInformation Communication Technology (ICT)
Sto Thomas Senior High school
Sto Thomas, Batangas
2022–2024

Projects

ElectroPOS – POS and Inventory System for an Electric Store

- Role: Developer
- Developed a point-of-sale and inventory system for an electric store to handle sales transactions and stock monitoring.
- Built inventory tracking features to keep product quantities accurate and reduce manual record-keeping.
- Designed game logic and a simple, responsive interface that works across devices.

HR Ticket System

- Role: Developer
- Built a system for the HR office to manage employment records, payroll concerns, leave applications, benefits, and faculty and staff requests.
- Organized requests as tickets so HR can submit, track, and resolve concerns in one place.

School Library System

- Role: Developer
- Developed a library management system covering circulation (borrow, return, renew), patron records, and overdue lists.
- Added attendance, acquisition, inventory, file storage, serials, and reservation modules for books, rooms, and equipment.
- Built reports that can be printed or saved to Excel, plus utilities for settings, staff accounts, and an activity log.

Skills

- Able to use C, C++, HTML, JS, PYTHON, PHP, CSS, & SQL
- Problem Solving
- System Development
- Networking Basics
- Computer Literacy
- Communication
- Adaptable
- Website Development
